

Chiropractic Therapy Assistant A Clinical Resource Guide

CONTENTS in BRIEF

The textbook **Chiropractic Therapy Assistant, A Clinical Resource Guide**, provides a broad approach to learning that appeals to assistants working within all chiropractic philosophies and management environments. This one-of-a-kind textbook is a dynamic and effective resource for the profession. Designed for adaptable use in any program, the text presents information in an applicable format to expedite a thorough and efficient educational process for the chiropractic paraprofessional in your state.

An accompanying **Workbook** is available to further evaluate and enhance the reader's understanding as an adjunct to **Chiropractic Therapy Assistant, A Clinical Resource Guide**. The Workbook will help the reader to more thoroughly grasp and retain the concepts covered in the textbook through exercises, quizzes and other tools. The format and information provided on all educational materials are specifically designed to help the reader study more effectively to get the maximum benefit from the *Clinical Resource Guide* text. Additionally, video and an interactive website are in the final stages of development.

- Ch 1: The Professional Chiropractic Therapy Assistant
