

Puerto Rico:

Just some quick information on what we have been doing for the past year.  
Our board is composed of :

Jonathan Pomales, D.C.  
President

Irma Sierra, D.C.  
Member

Felix Rodriguez, D.C.  
Member

Ms. Ana Maria Rivera  
Secretary

We have finished and submitted to the Department of State both the bylaws, rules, regulations and ethics code for both the Profession and Continue Education. We are currently finishing our new chiropractic law which will be ready by the end of June to be voted on by congress and senate late this year.

We have created our web page to inform candidates on dates and fees for recertification procedures. Also we have provided DC's in Puerto Rico with Ethics, Risk Management and HIPAA law training and seminars so they can start making the necessary arrangements in their practices.

Our board also work on forms and requirements for our new applicants in order to gather all the important information needed to process the applications. We have contracted the services or an outside psychometric testing corporation to design, developed, correct and grade our board so the process will be completely unbiased.

These are some of things that we have worked in the past year and to express my deepest thanks to the FCLB staff, Dr. Wolfson and attorney Dale Atkinson of FARB for being there when we needed them.

Thanks and hope to see you at the annual meeting.

Dr. Pomales  
President  
Puerto Rico Board of Chiropractic Examiners
